

Examples of Artists' Statements

Some revisions Sept. 2020

Getting Your Sh*T Together: making life better for artists has some [examples here](#).

The [Bau-Xi Gallery](#) provides brief third-person objective statements that accompany the works of artists such as Lisa Burke, Jack Shadbolt, Bobbie Burgers, Karen Yurkovich, Margaretha Bootsma, Stuart Slind, Ken Wallace & Tom Burrows (to name only a few).

[Artspeak](#), a local, artist run gallery, has a web site with good examples of press releases about individual artists (though please note that these press releases are not actually written by the artists themselves).

The [Bugera Matheson Gallery](#) in Edmonton provides examples of artist's statements, bios, cv's and images. Some of the links are better than others — but worth perusing.

[TROUT: UVIC's 1996 Graduating Exhibition](#): This site provides over a dozen images accompanied by artists' statements. Some are written by the artists themselves, others are quotes from writers, theorists, and other visual artists.

[Richmond Art Gallery](#) provides artists' statements that are often accompanied by images of the work.

[Artes Magnus Gallery](#) Is a good place to look if you would like to see examples of short descriptive statements.
