

# Examples of Artists' Statements

*Links up to date as of 2022.*

This list includes a wide variety of artists' statements. Also try checking out the websites of artists you like, or places that have exhibited their work to see if they have statements you can read.

- "Getting Your Sh\*T Together: making life better for artists" has some [examples here](#).

- The [Bau-Xi Gallery](#) provides brief third-person objective statements that accompany the works of artists such as Lisa Burke, Jack Shadbolt, Bobbie Burgers, Karen Yurkovich, Margaretha Bootsma, Stuart Slind, Ken Wallace & Tom Burrows (to name only a few).

- [Artspeak](#), a local, artist run gallery, has good examples of press releases about individual artists in the "Archive" section of their website (though please note that these press releases are not actually written by the artists themselves).

- The [Bugera Matheson Gallery](#) in Edmonton provides examples of artist's statements, bios, cv's and images. Some of the links are better than others — but worth perusing.

- [Richmond Art Gallery](#) provides artists' statements that are often accompanied by images of the work.

- [Artes Magnus Gallery](#) Is a good place to look if you would like to see examples of short descriptive statements.
